Contraception

We provide information on the methods of contraception and advise you how to use them to avoid an unwanted pregnancy and to protect yourself from sexual diseases.

Family planning

We can advise you on how to balance your family planning, personal career, childcare and future plans and support you with the process.

Financial help

We advise you on welfare issues and support you in applying for financial support during and after pregnancy.

Abortion

We inform and support you non-judgemental and with an open outcome if you are considering an abortion. We issue the necessary certificate after the consultation and support you within the process and afterwards.

Miscarriage and stillbirth

We offer counselling and care if you lost your baby during pregnancy or if you had to say goodbye to each other too early.

Unfulfilled desire to have children

We advise you on the opportunities in reproductive medicine and accompany you during the process to have a baby.
